*UNIQUE PLACE FOR SEMINARS, CONFERENCES, CULTURAL,
SOCIAL OR CORPORATE EVENTS.*

WAY OUT THERE

Waterworks museum is located 10 minutes' drive from the city center, located in the historical site of the first pumping station in **Karlova Ves**. The museum was founded on 1st of November 2007 on the 120th anniversary of the first Bratislava water company. A specialized technical museum focuses on the water industry across Slovakia. The museum regularly joins various programs for the public including *International Water Day* in March, the *Bratislava for All* event and the *Night of Museums and Galleries*.

STAY

How do you feel about high standards of design and comfort of all 231 guest rooms and suites? Located just a step away from the urban hustle and bustle, an easy 15-minute walk along the Danube River, one would find **the Grand Hotel River Park**, an amazing five-star hotel with its own **Riverbank Restaurant** which offers first class dining. Each room features wireless high-speed internet access, a multimedia TV, a minibar, and individually controlled air conditioning. For a bonus, there is a prestigious **Zio Luxury spa** on the 11th floor of the hotel, which offers the stunning view of the river and Slovak landscape. The hotel's uniqueness also emphasizes a private landing for helicopters on the hotels roof and a private river pier.

MEET IN STYLE

Waterworks Museum can host a wide range of events, from business events, conferences, banquets, car presentations, weddings and so on. ¹ The venue can be adapted to the type of event – the capacity of the museum is up to **50, 200 or 350 people**, depending on the configuration of the whole space.

OFF THE EATEN MICE TRACK

Nearby the Waterworks museum one would find a **Kontajner Riviéra**, serving daily fresh and healthy food, delicious homemade cakes, Slovak coffee and a gallery, located on the second floor of the venue, promoting local culture. One might think that putting the word container in the name of the restaurant can be a bit risky, but the names goes right to the point. The building truly is built out of containers – the whole project is eco-friendly, the materials used in it are raw and natural so one would feel cozy and homey while being at the restaurant. In addition, all the furniture in the café is recycled and second hand which gives the venue a special, warm feeling.
