

Take a look inside the city

Families with children can explore the Old Town in a comfortable way, riding on the very popular retro designed road trains with a multilingual tour guide on hand. During the journey you can get to hear about the secret stories of each street, as well as places, houses and the old city walls.

You will see the Primatial Palace, stop at the famous St. Martin's Cathedral and also drive past Michael's Gate – the last preserved city gate of the town. Your ride will take between 35-50 minutes and you can also see:

- ▶ **The Main Square** with the **Old Town Hall** and **James's House**. Enjoy a spectacular birds-eye view of the Main Square from the tower of the Old Town Hall.
- ▶ An exciting view over Bratislava offers also the restaurant **UFO** over the SNP Bridge and the **Kamzík** television tower on the Koliba hill.
- ▶ **Posmievačik**, **Schöne Náci**, **Napoleon Soldier** or **H.Ch. Andersen** – these iconic statues are as much a part of Bratislava as is the Danube River. Tourists should not forget to take a picture with the curious **Čumil** looking out from beneath a canal cover.

Let's get into the forest!

Bratislava and its surroundings offer plenty of enjoyable locations for families preferring fresh air and exercise.

At almost a finger's length from the historic Old Town is a city park called **Horský park**, currently a 22 hectare forest park, where you can find an original historic gamekeepers house. Aside from the many sweet baked delights of Bratislava, there is also a playground for children and a small petting zoo. The little ones can also ride a pony here.

Another green oasis with a big playground for kids is the park **Sad Janka Kráľa**. One of the most popular places for families is also the natural area of **Železná studienka** with the possibility to paddle on a lake or to reach the Koliba hill via cable car. On it's very top you will find the Kamzík television tower. Neighbouring close by are the sporting grounds of **Partizánska lúka (Partisan Meadow)**, where a trampoline and different sports activities and grounds as well as a public grill await children.

Once upon a time...

Bratislava, once known as Pozsony or Pressburg was the capital of Hungary for more than 200 years. Eleven Hungarian kings and seven royal consorts were all crowned here, with the most famous being **Maria Theresa, crowned on June 25, 1741**.

Follow the **coronation path** via the little golden crowns placed into the sidewalks of the Old Town. Today, observers cannot help but notice the 150 kg gold-coated replica of the Hungarian crown atop the church tower of St. Martin's Cathedral.

Traditionally, every year during the last weekend in June, Bratislava witnesses the spirit of the coronation. In the streets of the city the crowning ceremony is recreated. There is a procession of nobles dressed in period costumes as well as many attractions for both small and big (korunovacie.sk).
