If your attendees are in good physical condition and have the ability to swim and positive relation with water, you can choose the **Areal Divoka Voda** for your next MICE project. You can choose from more or fewer adrenaline sports, from rafting, kayaking, hydrospeed, surfing, riding the jet ski or motorboats, wakeboarding, water skiing, walking on water in an aquaroller, to the more dry sports like archery, ride on quads, paintball, beach volley or football.

Whitewater channel that contains two main channels, which are interconnected several times, provide different possible combinations of the drive track. The water difficulty levels can be regulated by flaps letting the water into channels. At the end of the channels, there are two outputs mouting directly to the Danube river. In the natural, 255m long, 14m wide and 1,2m deep, channel the water is calm and is a perfect preparation area for passengers before they enter the main channel. Various competitions and entertaining races, as well as the kayak school, can be performed in this channel.

In the Čurovo channel there are 5 different types of tracks that can be modified and regulated, according to the level of condition of the participants. The tracks are 460 m long. The most used is the combination of the tracks 1 and 2 and the difficulty degree of WW III.

Hotel Divoka Voda provides premises for holding congresses and training. Two fully equipped congress rooms that can host up to 60 participants offer comfortable daylight and a wild water panorama of the Old Danube River. It is possible to make an exclusive reservation of the entire hotel, that caters to rich coffee breaks and other meals. But the most important feature is that your conference or event is connected to a sports and relaxation programme directly in the complex.

Professional event managers of the Divoka voda hotel will arrange everything according to your requests to make a memorable conference, company party or team building in the outdoor and indoor premises.
