

Hotel Albrecht – the modern tradition

Hotel Albrecht has everything that the big hotels have but in smaller, boutique size.

Hotel Albrecht was opened by the Albrecht family and is located in a quiet and peaceful residential district right by the city center in a building that is a National Cultural Monument. This boutique hotel nicely joins the old and the new in a contemporary design and offers a picturesque view of the Danube valley. The famous Bratislava Castle is also in the vicinity. The hotel also offers a beautiful spa, saunas and a swimming pool and is well known for its renowned international cuisine.

The rooms are comfortable, luxurious and fully equipped with modern technology, but still, have a soul of centuries that passed since the building was built. The wooden ceilings and the wooden beams in the rooms remind you of old times, but the elegant and modernistic furnishing of the rooms are making the guests stay comfortable.

The hotel's restaurant is well known for its menu and delicious cuisine. The restaurant can host up to 50 guests, and another 50 seats are placed on the beautiful terrace. For organizing a banquet or a cocktail up to 100 can be catered in the hotel, and in the summer the number of guests gets higher since the event can be organized out on the terrace.

When organizing a small meeting for 10 to 12 people, there is also a small, fully equipped meeting room with big windows, air condition, Wi-Fi and data projector.

If you like a homey, comfortable traditional hotel experience, in a quiet district, but in a nearby of the Old city center and the famous touristic attractions of Slovak capital, Hotel Albrecht is the right choice for you.
